Re: Pig Ears

Treat Planet is committed to providing 100% Natural, Made in the USA pet treats. Most importantly we ensure that our treats are safe and something that we ourselves would feed our pets.

Cosmo's Snack Shack™ pig ears under the parent name Treat Planet, LLC, have not been involved in any of FDA investigations. We utilize a 3rd party for bacterial testing including salmonella before they are released for customer shipments. Further with the recent market issues, we have taken a secondary precaution and have treated product with FDA approved micro bacterial sterilization.

Thank you for your business and continued support of Treat Planet and it's brands.
