

**ALASKA CERTIFIED EROSION AND SEDIMENT CONTROL LEAD
(AK-CESCL) STORM WATER TRAINING PROGRAM**

April 1st - 8:00am to 5:00 pm

Viking Hall

8141 Briarwood St, Anchorage, AK 99518

SPONSORED BY ALASKA GARDEN & PET SUPPLY, INC.

This one day training course provides present CESCL card holders a certification renewal. The course is a summary of the two day course providing contractors, consultants and regulators with the most current techniques for successfully managing erosion and sediment at construction sites. This class is also recommended for anyone responsible for erosion & sediment control and treatment on a jobsite.

Participants will learn how to identify when storm water treatment is required, what treatment method should be used based on site conditions, when to use

physical, mechanical and chemical treatment, and what kinds of treatment are available.

In addition, the newest information on complying with and reporting requirements for federal, state and local regulatory requirements for storm water is presented in an easy to understand format. The Alaska Storm water Steering Committee sanctions this training as satisfying Certified Erosion and Sediment Control Lead certification requirements.

This class is limited to 60 participants and we encourage you to get your registration form back to Alaska Garden & Pet Supply Inc. as soon as possible, as this will be, first come, first served. Participants completing this class will receive certification as erosion and sediment control lead (AK-CESCL)
